Hi Professor,

I'm going to join MSIS program in Spring 2014 and i'm a transfer student. I'm planning to graduate by Spring 2015. As per the schedule provided to me by Laurie, IS 6410 is being offered only in Summer 2014. Since i won't be available in SLC in Summer 2014, i won't be able to take up IS 6410. After having discussion with Laurie about this, we thought that i can take up IS 4430 which is being offered in Spring 2014 and request the concerned professor to give me extra assignments as per the grad level.

So could you please let me know if can proceed with this plan?

Thanks,
Deepti
